## **NICKEL PROJECTS UPDATE – SOLOMON ISLANDS**

---

Malachite Resources Limited (ASX: MAR) is pleased to advise this update on activities regarding its nickel investment activities in the Solomon Islands.

### **JEJEVO NICKEL PROJECT**

In December last year Malachite Resources Limited (Malachite) entered into a Share Subscription Agreement with Sunshine Minerals Limited (Sunshine) to acquire up to a 15% equity interest in Sunshine. Sunshine is a private company incorporated in the Solomon Islands, which owns 80% of Sunshine Nickel which holds PL 01/18 located on the south coast of Santa Isabel Island. The remaining 20% of Sunshine Nickel is owned by local land owners. The Jejevo Nickel Project is located within the PL 01/18 project area.

Pursuant to the Subscription Agreement Malachite could earn a 15% equity interest in Sunshine in two tranches; the first 7.5% equity interest by spending A\$100,000 on the project and a further 7.5% equity interest by spending a further A\$125,000 on the project. Malachite advised on 7 April 2020 that it had earned its initial 7.5% interest.

Malachite is now pleased to announce that it has met its expenditure commitments for the second tranche and accordingly Malachite has now earned its 15% equity interest in Sunshine.

As previously advised Malachite has extended its exclusivity arrangement with Sunshine from 31 March 2020 to 30 September 2020.

The Jejevo Nickel Project is an advanced stage direct shipping ore nickel laterite project with excellent potential for development. The project was previously drilled in 2013 and the initial objective is to carry out sufficient work to confirm a 2012 JORC Resource at the earliest opportunity.

The Jejevo Nickel Project has a number of positive aspects including its close proximity to the coast, no processing requirements, low capital route to direct shipping ore production and local landowner support. It is envisaged that mining of the project could potentially commence within 2 years.

### **KOLOSORI NICKEL PROJECT**

Earlier this year, Malachite entered into a memorandum of understanding (MOU) with Kolosori Nickel (SI) Limited (KNL). KNL holds PL 05/19, which holds the main part of the Kolosori Nickel Project which is also on Isabel Island in the Solomon Islands. PL 05/19 is located to the east of the Jejevo tenement on Isabel Island. Under the MOU, Malachite secured exclusivity until 30 June 2020 to carry out due diligence and consider a transaction with KNL. Malachite is pleased to advise that this exclusivity period has now been extended to 30 September 2020 in part to account for COVID-19 travel restrictions and other related issues. Malachite is continuing its due diligence on this project. The resource at Kolosori is at a similar stage to that at Jejevo and if commercial terms are resolved

**Malachite Resources Limited ABN 86 075 613 268**  
**Level 4, 283 George Street, Sydney NSW 2000**  
**P O Box R1295, Royal Exchange NSW 1225**  
**Tel: (02) 9251 0032      [www.malachite.com.au](http://www.malachite.com.au)**

with KNL the initial objective would be to carry out sufficient work to confirm a 2012 JORC Resource at the earliest opportunity.
